

Easy bags with naughts and crosses board

Items needed (quantity per creation)

- 2 pieces of fabric 15cm x 25cm
- Hot glue
- Fabric or Acrylic paint
- String or cord, a 40 cm piece
- 1 Straw

Instructions

1- Take your two pieces of fabric, fold down 2.5 centimeters toward the wrong side of the fabric, then glue to create a seam that the cord can be put through.

If you are doing this craft with mainly 5 year olds you may want to increase the fold to 5cm so that the gap is easier to thread the string through.

2- Glue down each side and along the bottom to join the two pieces. Remember to have the wrong side facing in.

3- Once the glue has dried, thread a straw through the first fold then thread through the string/cord. Next do the same through the other fold to create a loop of string. Tie a knot.

Next you will want to add the grid for the naughts and crosses board. This is done using fabric paint or acrylic and painting two vertical lines and two horizontal lines in a # pattern.

Fill with the two sets of stones that can be used as the playing pieces for naughts and crosses.
