

# Paper Feathers

## Items needed (quantity per creation)

- Lightweight Card/Paper
- Templates
- Scissors

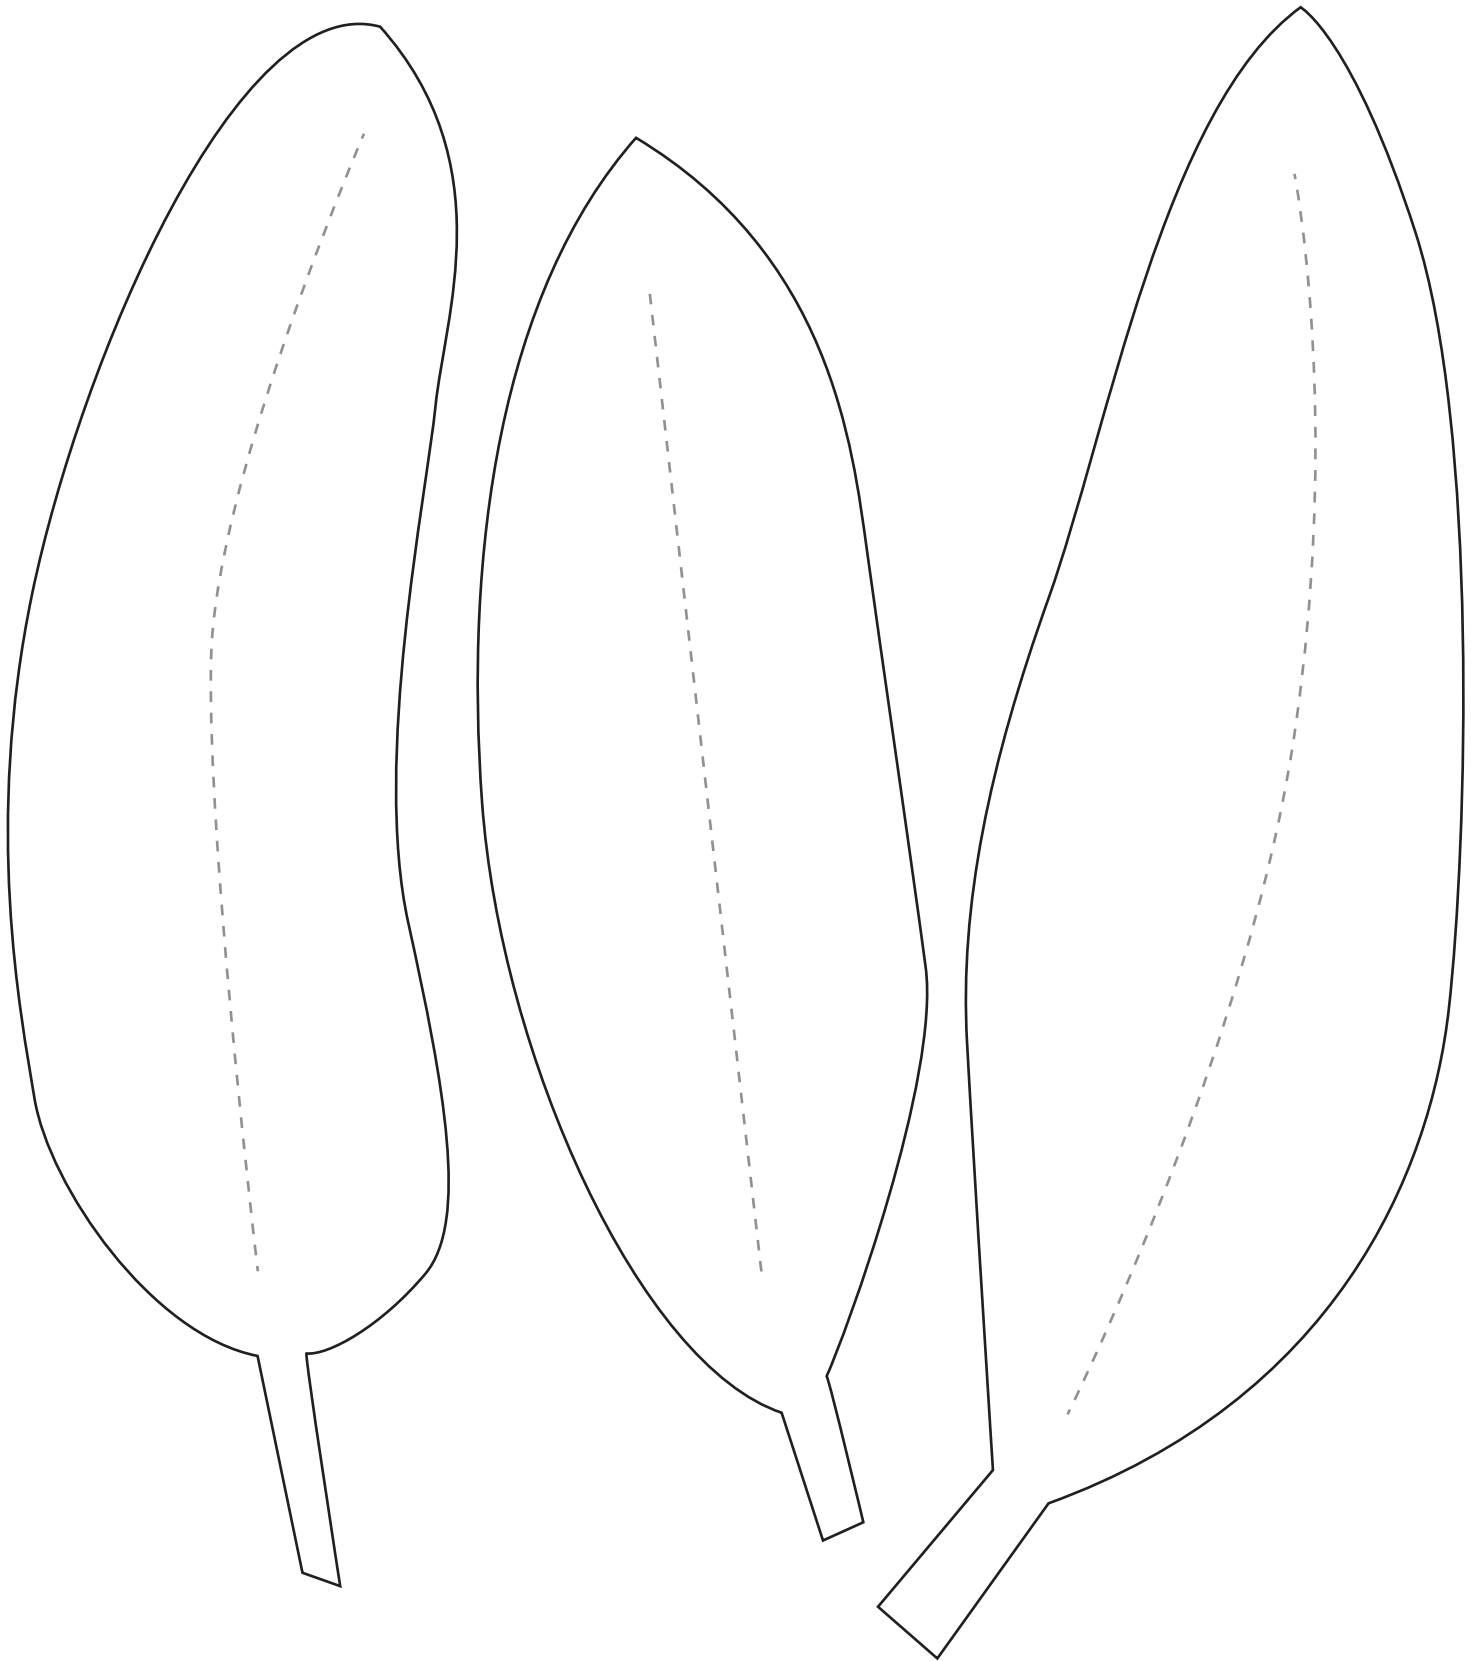

## Instructions

1- Print the templates below. If you are going to cut and trace, then simply print onto copy paper. If you are going to cut from the template directly then print onto white or coloured lightweight card.

2- Cut out the template, then make an angle cut from the outside to the middle of the feather, leaving about half a centimeter before the dotted line.

3- Continue this until you have the full feather cut.
