

# No Sew Pencil Case

## Items needed (quantity per creation)

- Fabric A4 size approx
- Stapler and staples
- Duct tape (Bunnings has a huge range of colours. One roll will make several creations)
- Valcro or dome clasp

## Optional

- Embellishments
- Hot Glue

## Instructions

1- Cut out your fabric with the attached template. Fold your fabric in on itself so the good sides are facing each other and back and front align. Staple down each side with the staples close together and about 5mm in from the edge

2- Use the duct tape to cover the entire inside of the bag. As you go fold in the excess fabric on the sides. This should leave you with a nice rectangle shape.

3 - Your finished product should look like this image. Turn your creation back in the right way. At this stage apply velcro to the flap so you can shut the cover. Embellish to your hearts desire if you wish.
