

Marbled Gifts

Items needed (quantity per creation)

- Flower pot or mug or other item
- Big bowl (the bowl wont be able to be cleaned so preferably a disposable bowl)
- Nail polish
- Water (cold)
- Apron
- Ice block stick

Instructions

This activity can be messy and nail polish is hard to remove so aprons are a good idea

1- Fill a bowl with cold water, then drop in drops of nail polish. The drops should spread and marble.

2- Get your item and push it down through the nail polish, the nail polish should adhere to the object.

3- Take the object out of the nail polish and set aside to dry.

4- To get ready for the next dip use an ice cream stick to remove the excess from the water, if you swirl it around it should clear.

Alternative

Make it funky by trying multiple colours in your marble pattern. You could also try re-dip in another colour making layers of marble effect.
