

# Other tassel crafts

## Items needed for basic tassel (quantity per creation)

- Card
- 1 Pipe cleaner
- Wool

### Instructions to make the tassel

1- Wrap your wool around your card lengthwise about 20-50 times (no need to be exact just till it looks as you want it). Then thread your pipe cleaner through and tie at the top.

2- Cut the wool off the opposite end of the card.

3- Tie another piece of wool around the wool strands approximately 3-5cm down from the pipe cleaner.

### Adaptations

#### Necklace

For the necklace you could replace the pipe cleaner and the woolen tie with jewellery wire, then add the tassel to your favourite necklace or make one to attach it to.

#### Bag tag

Add a keyring to the top of the tassel so it can easily fit onto the zipper of your favourite bag.

#### Garland

Make as many as you want then simply tie the top pipe cleaner on a length of wool or string to get an amazing decoration perfect for any space.
