

Ribbon Animals

Caterpillar

Items needed (quantity per creation)

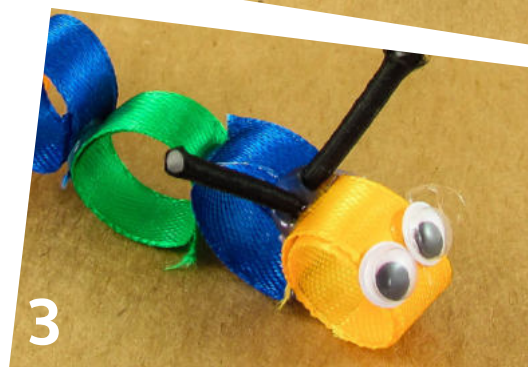

- 5 small pieces of ribbon 5cm or more
- Googly eyes
- Elastic thread or card strips approx 2.5cm
- Hot glue

Instructions

1- Start by rolling the ribbon to make small circles and hot glue the ends.

2- Join the 5 rolls to make the body of the caterpillar with hot glue.

3- Add the two googly eyes on the front of the first circle and the two antennae (made with elastic thread or cut strips of card) between the first and second circle.

Ribbon Animals

Butterfly

Items needed (quantity per creation)

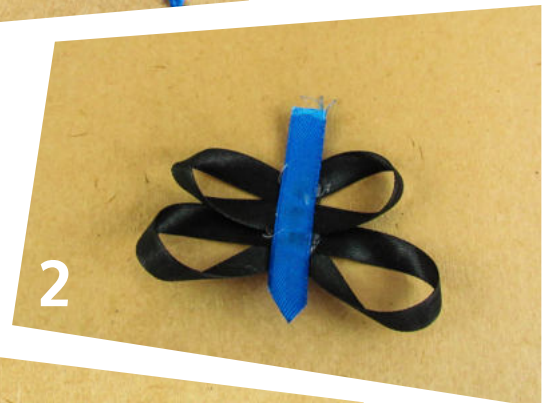

- 3 small pieces of ribbon 10cm or more
- Googly eyes
- Elastic thread or card strips approx 2.5cm
- Hot glue

Instructions

1- Start by cutting a small v in the bottom of a piece of ribbon, this is going to be the body. Then glue the top wings onto the body, start by making a 't' shape then taking the two ends and curling them around to the middle.

2- Repeat this step for the bottom wings, you may wish to make the bottom ones smaller or bigger.

3- Add the two eyes at the top of the central body piece and the two antennae (made with elastic thread or cut strips of card) just above them.

Ribbon Animals

Turtle

Items needed (quantity per creation)

- 5 small pieces of ribbon 5cm or more in green
- 1 10cm piece of brown
- Googly eyes
- Hot glue

Instructions

1- Start by taking two of the green pieces and cutting small 'v's in them to make them look more like feet. Then glue them in an 'x' shape. Next add a small piece (cut down from the 5cm pieces) with a 'v' cut into the bottom for the tail. Then make a small loop and glue the opposite side to the tail. This is going to become the head.

2- Next roll the brown piece to make a small shell shape, this may need to be glued in several places to stop it unwinding. Glue this in the center to make the shell.

3- Glue on the two eyes and you're finished.
