

# Sponge balls

## Items needed (quantity per creation)

- 2 Sponges
- Cable tie (or string)
- Scissors

## Instructions

1- Take your sponges and cut each into 6 strips as shown in the photo. (If you wanted you could cut length ways but you would only get four strips out of each sponge so would need to use more sponges per creation)

2- Stack up 9 of your strips.

3- Place the cable tie around the middle and then pull tight. Remember to cut off the end part of the cable tie.

Dunk in a bucket of water then let the water fight begin. They can also be fun as a soft inside play ball.
